摘要

2016 年 11 月 21-23 日在曼谷第 15 屆水產動物健康亞洲區域諮詢小組會議，該會議主要成員為東協國家及中國。本次會議主要議題為水產品之食安及公安、新興疾病防治及抗藥性監測。會議決定把 1)水產品病原抗藥性引起的公衛問題， 2)水產動物飼養過程之認證及產品上市前檢驗及處理及 3) 新浮現病原疫情調查、診斷及防治建立等三項列為 2017 年重要行動計畫課題。

Report on the 15th Meeting of Asia Regional Group on Aquatic Animal Health

Chien Tu

Abstract

The 15th Meeting of Asia Regional Group on Aquatic Animal Health was held from November 21 to 23 in Bangkok, Thailand. The members consist of countries from Association of Southeast Asian Nations (ASEAN) and China. The main sessions for discussion are food safety and public health for aquatic products, control of newly emerging aquatic diseases and surveillance of drug resistance. Advisory group determined that public health caused by drug resistance of aquatic products, the accreditation for culture process and pre-examination for aquatic products, and epizootiology, diagnosis and control for emerging diseases will be set up as action plans 2017.
